# Water Pollution

## OBSERVATIONS

science experiment

Water without trash

Water with trash

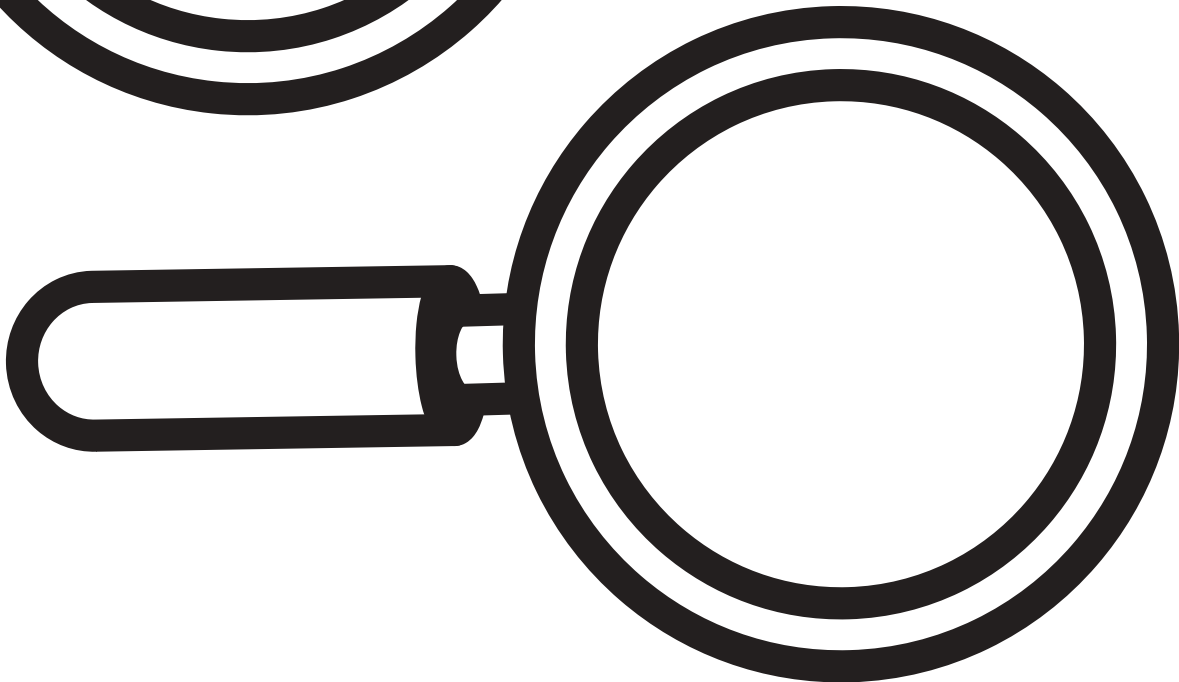

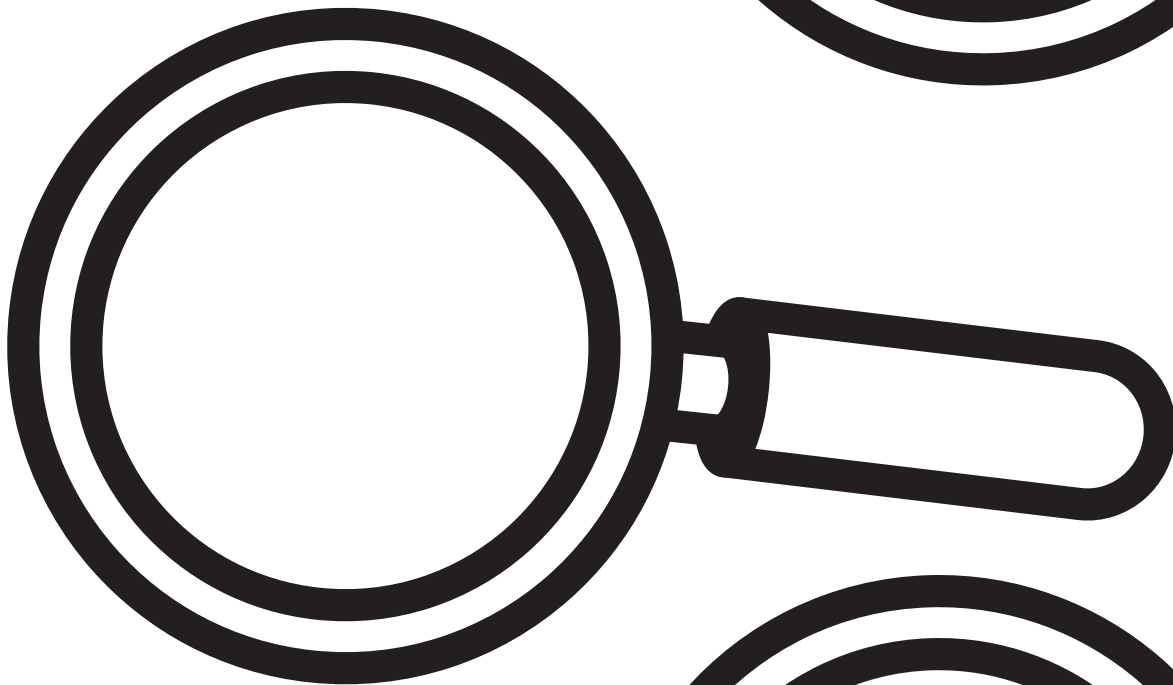

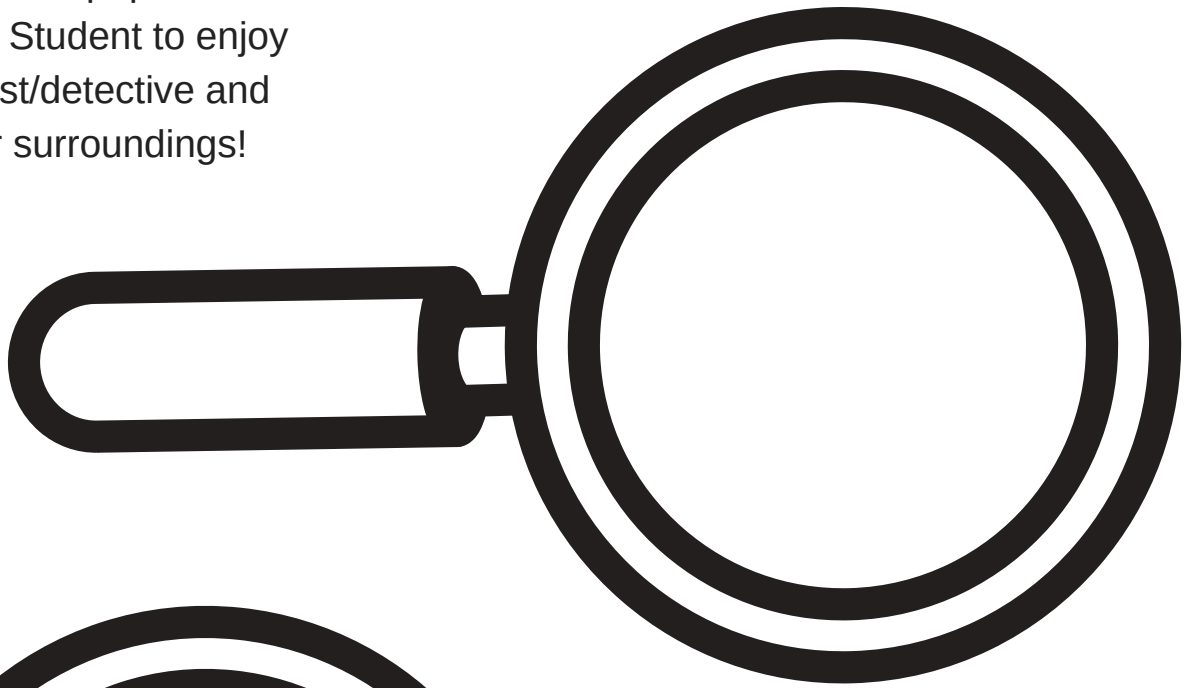

## What is water pollution?

---

---

---

Print on cardstock paper and cut out. Give to Student to enjoy playing scientist/detective and observe their surroundings!

Thank you for downloading!

This printable has been created by Alexandra Derry, with [www.scissorsandglue.ca](http://www.scissorsandglue.ca), with the help of her son who loves to create printables just as much as she does. We hope that you and your students, or children enjoy using this fun water pollution observation experiment printable in your classroom, or homeschool.

You can find the post about when we did this project for the first time by clicking anywhere on this page.

Til next time,  
Enjoy building your masterpiece with scissors and glue, and science too!

Sincerely,  
Alexandra Derry
