Dear Homeschooling Parent,

I am so glad that you have downloaded 'Our Homeschool Records'. My hope is that these record logs will assist you on your journey with homeschooling, in the documentation process of your children's learning at home.

These logs are helpful for the un-schooler who may not follow a curriculum, and who simply desires to document what their children have done and learned. If you do follow a set plan or curriculum these logs also work for you too.

The precious moments of the homeschool year go by so quickly, let us take the time to document our children's achievements and accomplishments with these simple record logs!

Print off the required logs for each of your kids and go! I like to place them in a binder and continue to record in the daily, weekly and monthly logs. At the end of the year, you will have a nice collection of data that will aid you in your end-of-the-year evaluations.

Sincerely,

Alexandra
